## FRONT-END DEVELOPER

---

Dedicated Developer with 2 years of experience, specializing in creating scalable React ecosystems and building back-office solutions with modern interactive UI.

## PROFESSIONAL EXPERIENCE

---

### SEFRONE (STARTUP) FRONT-END DEVELOPER

**REMOTE**  
**March 2023 - May 2024**

- Led building and designing scalable applications within the React ecosystem, including secure authentication systems, parent state management, dynamic protected route rendering, global error/redirection handling
- Created a custom library of reusable UI components, utilizing component composition and TypeScript best practices to ensure well-documented and maintainable code, resulting a 25% acceleration increase in new projects initialization speed.
- Developed custom HTTP hooks for data handling and fetching, inspired by RTK Query, resulting in an 80% reduction in HTTP call boilerplate.
- Contributed to Backend CRUD tasks using the fundamentals of ASP.net and Oversaw the development and maintenance of 7 services, 3 products, technical documentation and workflows.
- Mentored 2 junior front-end developers, enhancing their skills in React, and TypeScript. This resulted in a 30% reduction in review time and a 35% increase in code maintainability as measured by reduced bug reports and improved code quality.

### FREELANCE FULL-STACK DEVELOPER

**Feb 2022 - Current**

- Built TaskFlow, a full-stack Next.js 14 SaaS app for streamlined workflows. Users can create and manage boards, collaborate with ease, and leverage a rich text editor for cards. Inspired by Trello and Jira, prioritizing simplicity and rapid actions.
- Ideated a modern 3D NFT showcase and a cryptocurrencies details tracker, Included a cinematic scene scrolling journey, with camera and light animations
- Developed a Touristic backend API, facilitating tours services with user registration, location details, and guides.

## SKILLS

---

HTML, CSS | Javascript | **Typescript** | **React** | Next.js | Three.js | **Redux** | **Tailwind** | Framer-motion  
Node.js | C# | ASP.NET | Prisma | Docker | MongoDB | Mysql

## LANGUAGES

**ENGLISH** Professional working proficiency  
**ARABIC** Native  
**FRENCH** Professional working proficiency  
**GERMAN** Elementary Proficiency

## EDUCATION

**HOUARI BOUMEDIENE UNIVERSITY(USTHB)**  
**Mechanical Engineering**
